1999 PRODUCT INFORMATION GUIDE

For Release: August 1, 1998

1999 CHEVY BLAZER ADDS UPSCALE NEW MODEL AND FEATURES

DETROIT — It's everything from a no-nonsense two-door to a luxuriously appointed four-door. And for 1999, Chevy Blazer is also a touch more refined, with a new up-level model and a variety of new comfort and convenience features.

"Today's sport utility owners are not only buying the performance and added security that comes with buying a truck, they're buying image," said Russ Clark, Blazer brand manager. "Whether they're driving off-road, or negotiating a crowded freeway, they want to know that Blazer can provide both ruggedness and refinement in one package."

Chevy Blazer's refinements for '99 start with new interior features, such as an eight-way power driver seat with memory and power passenger seat (standard on LT models), available steering wheel-mounted radio controls, uplevel Bose premium sound systems and multiple CD changer. Also available, a new six-way power driver and front-passenger seat (option only available on the LS 4-Door model).

Blazer also adds a standard flash-to-pass feature (allows driver to flash high-beam headlamps as a passing signal) and liftglass-ajar warning telltale light; content theft alarm on vehicles with Remote Keyless Entry; and available power heated exterior mirrors.

Blazer rounds out its "what's new list" with an optional Autotrac transfer case (4x4 models only). This system provides 100 percent rear-wheel drive until road conditions warrant a change.

NEW TRAILBLAZER MODEL

The TrailBlazer is an upscale Four-Door version aimed at buyers who crave the ultimate in style and comfort in a sport utility.

Clark said that TrailBlazer capitalizes on the fact that four-door buyers tend to be different than two-door buyers in the way they use their Blazers.

- MORE -

"Two door buyers are more likely to go off-road," said Clark. "That's why we created the Two-Door ZR2 . . . a true off-road machine. Four-door buyers want the attributes of a truck, with a very refined, distinctive appearance . . . just like TrailBlazer."

TrailBlazer's special features include:

- A sporty, monotone exterior featuring the TrailBlazer name.
- Body-color front bumper and fascia, body-side moldings, rocker moldings and outside rearview mirrors.
- Special aluminum wheels with gold accents.
- Z85 Touring Suspension (four-wheel-drive models), which includes de Carbon gas shocks P235/75R15 on- /off-road WOL tires (4x4 models) and firmer spring rates for a sporty feel and tight handling.
- P235/70R15 all season B/W tires (2WD models)
- Special Two-Tone leather trim seats with embroidered logos on the headrests, and the TrailBlazer name embroidered on the door panels.
- Leather-wrapped steering wheel and unique floor mats.
- Floor-mounted transmission shifter.

According to Clark, the name "TrailBlazer" is appropriate for the truck that carved a new trail when it was introduced back in 1982.

"We created a new market when we introduced the S-10 Blazer," said Clark. "Today's TrailBlazer offers a new level of refinement that builds on our top-of-the-line LT model in terms of styling and appearance."

Clark said that TrailBlazer represents a significant value when compared with similar competitive offerings currently available.

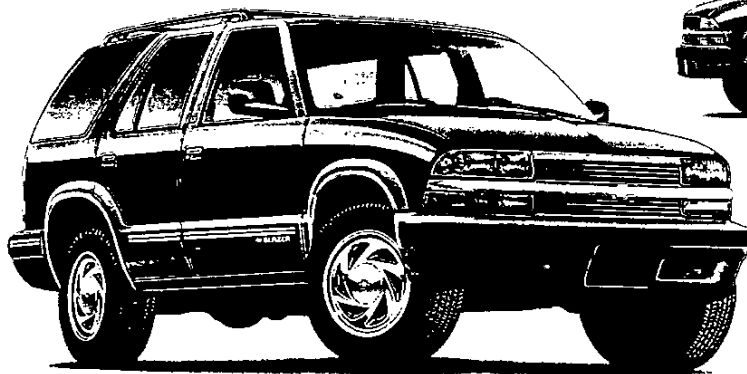

"I can tell you that the TrailBlazer Package will represent a great value," said Clark. "Our competitors charge an extra four grand for their top-of-the-line '98 models. The TrailBlazer package will be available on 4-Door LT models for less than two-thousand dollars."

1999 CHEVROLET BLAZER

BLAZER.

4-Door Blazer LT 4x4.

2-Door Blazer ZR2 4x4.

BLAZER AND THE MARKETPLACE

Blazer offers today's sophisticated SUV buyer performance, safety, security and durability — all in one rugged yet refined package. Standard features like Blazer's Driver Control System, 4-wheel antilock brake system, four-wheel disc brakes and the available new Autotrac 4x4 system add up to increased driver confidence and security in virtually any driving situation.

Power is a Blazer strong suit as well. Its eager Vortec 4300 V6 engine boasts 190 horsepower, and is one of the most advanced engines in its class.

COMPETITORS

- Dodge Durango
- Ford Explorer
- Jeep Grand Cherokee
- Toyota 4-Runner

DEMOGRAPHICS

- Typical buyers are in their mid-30s to late 40s
- Median income of \$60,000+
- Equally divided between male and female

Sales for the 1997 model year were 230,219 units.

NEW FOR 1999

MODEL/TRIM PACKAGES

- Sporty and rugged TrailBlazer (page 3).

SAFETY/SECURITY

- Flash-to-pass (page 4).
- Content theft alarm (page 4).
- Liftglass-ajar warning (page 4).

INTERIOR

- Optional Bose premium sound systems (page 5).

- Optional multiple CD changer (page 6).
- Optional steering wheel-mounted radio controls (page 6)
- Driver memory seat-adjuster* (page 7).
- Power front-passenger seat (page 7).

*Not available at start of production.

EXTERIOR

- Three new colors (page 8)
- Larger outside mirrors (page 7).

TRANSMISSIONS

- Automatic transmission enhancements (page 9).

FOUR-WHEEL-DRIVE SYSTEM

- Autotrac transfer case (page 10).

BLAZER

1999 CHEVROLET BLAZER

MODEL/TRIM PACKAGES

2WD MODELS

- 2-Door Blazer — base-level, LS
- 4-Door Blazer — base-level, LS, LT, TrailBlazer.

4x4 MODELS

- 2-Door Blazer — base-level, LS,
- 4-Door Blazer — base-level, LS, LT, TrailBlazer.

BLAZER (WITH STANDARD TRIM)

Standard features include:

Interior

- Next Generation driver and right front-passenger air bags*
- Custom Cloth interior
- AM/FM stereo with seek-scan and digital clock
- 60/40 split bench front seat (4-Door)
- Front high-back reclining bucket seats (2-Door)
- Rear 50/50 split-bench (2-Door)
- Rear 60/40 split-bench (4-Door)
- Air conditioning
- Passlock® theft-deterrent system
- Convenience console with cup holder
- Carpeted front/rear floor mats
- Liftglass-ajar warning
- Delayed interior lighting
- Side-window defoggers and rear-seat air ducts
- Scotchgard™ protection
- Rear-seat child safety belt comfort guides
- Two rear-seat-area stowage boxes (2-Door only).

Exterior

- Rear liftglass/dropgate
- Deep-tinted glass
- Daytime Running Lamps with Automatic Exterior Lamp Control.

Functions:

- Vortec 4300 V6 engine with 160 horsepower
- Electronically controlled 4-speed automatic overdrive transmission (4T60-E)
- Power front disc/rear drum brakes
- Power rack-and-pinion steering
- 4-wheel independent suspension
- Battery-rundown protection
- 100,000-mile platinum-tip spark plugs†
- 150,000-mile extended-life engine coolant†
- 4-wheel antilock brake system (ABS)
- Insta-Trac transfer case with electric shift control (standard on 4x4 models)
- Autotrac active transfer case with electronic shift control (on 4x4 models).

*Always use safety belts and proper child restraints, even with Next Generation air bags. See owner's manual for more safety information.
†Parking brake must be disengaged for the system to activate.

BLAZER LS TRIM

LS trim, available on all models, offers the same features as standard Blazer base-level models, plus the following:

Interior

- Convenience group (includes power door locks and windows and electric remote heated exterior mirrors with dual folding feature)
- Convenience group (includes electronic speed control and tilt steering)
- Tachometer
- Deep-tinted glass
- Dual front-seat reading lamps
- Lighted visor mirrors
- Cargo net
- Two auxiliary power outlets
- Leather-wrapped steering wheel
- Uplevel interior door trim
- Electronically controlled AM/FM stereo with cassette player, 6 premium speakers and automatic tone control
- Overhead Console (includes compass, outside temperature display and dual front-seat reading lamps).

1999 CHEVROLET BLAZER

BLAZER.

- Touring Suspension (2-Door)
- Premium Suspension (4-Door)
- Liftgate with integral liftglass.

BLAZER LT TRIM

LT (available on Blazer 4-Door models) adds:

Interior

- NEW** 8-way power driver and front-passenger seat adjuster
- NEW** Driver two-position memory seat-adjuster (interim availability)
- Custom Leather seating surfaces
- Remote Keyless Entry
- Electronically controlled AM/FM stereo with cassette player, six premium speakers and automatic tone control
- 3-channel programmable HomeLink transmitter
- Electrochromic inside self-dimming rearview mirror.

Exterior

- Body-color grille and body striping
- Foglamps
- Electrochromic self-dimming LH outside mirror with dual breakaway feature.

NEW TRAILBLAZER PACKAGE

The new TrailBlazer Trim Package is available on Blazer 4-Door models. It will be its own specific model.

In addition to LT trim, TrailBlazer adds:

Interior

- Specific Two-Tone Custom Leather seating surfaces
- Specific Two-Tone front and rear door trim panels
- Specific leather-wrapped steering wheel and floor-mounted automatic transmission shift knob
- Premium TrailBlazer floor mats.

Exterior

- Monochromatic exterior paint scheme with gold accents
- Unique aluminum wheels.

Tires/Wheels

- Z85 Touring Suspension
- P235/70R15 all-season blackwall tires (2WD)
- P235/75R15 on- /off-road white outline-lettered tires (4x4).

THE CHEVROLET SPORT UTILITY FAMILY

Chevrolet approaches the sport utility market the way a customer would. Instead of viewing the vehicles by their traditional EPA classifications, there's a "family strategy" that segments the full lineup by individual customer need. And, Chevrolet offers the widest sport utility lineup in the industry. Here is how the Chevrolet sport utility family aligns with this strategy:

TRACKER 2-DOOR — An all-new entry-level sport utility with the rugged, go-anywhere ability of more expensive vehicles; appeals to adventurous "pioneers."

TRACKER 4-DOOR — For buyers who need additional cargo space; appeals to buyers who need the practicality of a sport utility, but in a smaller size.

BLAZER 2-DOOR — A roomy vehicle that offers a sporty styling flair that appeals to younger buyers.

BLAZER 4-DOOR — A roomy, five- or six-passenger vehicle with responsive Vortec engine power for buyers who want the convenience and added utility of four doors.

TAHOE 2-DOOR — One of the few full-size sport utilities on the market to offer a 2-Door model.

TAHOE 4-DOOR — A full-size sport utility which doesn't sacrifice garageability for huge cargo capacity.

DUBURBAN — Simply the king of SUVs, with available room for up to nine passengers and heavy-duty towing capacity.

BLAZER.

1999 CHEVROLET BLAZER

SAFETY AND SECURITY

With a long history of setting automotive safety milestones, GM is a world leader in automotive safety research, development and testing. The 1999 Blazer exemplifies that dedication, providing an outstanding list of safety and security features. And, with comprehensive systems emphasizing crash avoidance and occupant protection, Blazer owners not only get a versatile sport utility, but additional peace of mind, as well.

CRASH AVOIDANCE FEATURES

Standard features:

- **FLASH-TO-PASS** allows driver to flash high-beam headlamps as a passing signal to vehicle in front.
- **DAYTIME RUNNING LAMPS (DRL)** turn on automatically* when the ignition is on to increase Blazer's visibility to other drivers. With DRL, the lamps run at a lower intensity than regular headlamps to reduce glare to oncoming drivers. The DRL system is overridden when the vehicle's headlamps are engaged.
- **AUTOMATIC EXTERIOR LAMP CONTROL** turns headlamps and other exterior lamps to full intensity when light conditions dictate.
- **4-WHEEL DISC BRAKES** provide impressive braking, even in wet weather.
- **4-WHEEL ANTILOCK BRAKE SYSTEM (ABS)** reduces wheel lockup while braking hard on most slippery surfaces.
- **BRAKE TRANSMISSION SHIFT INTERLOCK**, standard on all Blazer models equipped with an automatic transmission, requires the driver to depress the brake pedal to shift out of Park.
- **STARTER SAFETY SWITCH**, standard on 2-Door models equipped with a manual transmission, requires the driver to depress the clutch pedal to start the vehicle.
- **DRIVER SECURITY** is a Blazer strong suit, thanks to features like the available Autotrac 4-wheel-drive system, flash-to-pass, Next Generation driver and right front-passenger air bags and more.

*Parking brake must be disengaged for system to operate.

STANDARD OCCUPANT PROTECTION FEATURES

- **NEXT GENERATION DRIVER AND RIGHT FRONT-PASSENGER AIR BAGS[†]** are designed to supplement the safety belt system by helping to restrain front-seat occupants in the event of a moderate to severe frontal impact.
- **SIDE DOOR BEAMS** designed to help prevent intrusion into the passenger compartment during shallow-angle side impacts.
- **CHILD SECURITY REAR-DOOR LOCKS**, when engaged, prevent the rear doors of 4-Door Blazer models from being opened from the inside.
- **SAFETY BELT CHILD COMFORT GUIDES** adjust the angle of rear shoulder safety belt crossover to make wearing safety belts more comfortable for children and small occupants riding in the backseat.
- **THREE-POINT SAFETY BELT SYSTEM** helps restrain outboard passengers to reduce the risk of injury by distributing forces during collisions.
- **FRONT AND REAR CRUSH ZONES** are designed to deform in a controlled manner in a collision to help absorb impact energy and reduce the risk of intrusion into the passenger compartment.
- **ENERGY-ABSORBING STEERING COLUMN AND INSTRUMENT PANEL** are designed to help absorb collision impact, reducing the risk of injury to the driver's body.

[†]Always use safety belts and proper child restraints, even with Next Generation air bags. See owner's manual for more safety information.

SECURITY FEATURES

- **NEW** **LIFTGLASS AJAR WARNING** provides a telltale warning if liftglass is not secured.
- **NEW** **CONTENT THEFT ALARM** (on vehicles with Remote Keyless Entry) triggers horn and headlamps if unauthorized entry is attempted at any passenger door. Lockout provision prevents doors from locking if keys are inadvertently left in the ignition.
- **STANDARD PASSLOCK[†] THEFT-DETERRENT SYSTEM.** If an attempt is made to start the vehicle without the proper key, the ignition system is automatically disabled.

1999 CHEVROLET BLAZER

- **REMOTE KEYLESS ENTRY** (included with LT models, optional with LS) transmits a uniquely coded signal to activate power lock/unlock functions, as well as illuminated entry.
- **HOMELINK PROGRAMMABLE TRANSMITTER** (optional on LS and standard on LT trim levels and included with optional deluxe overhead console) allows programming of up to 3 variants — like garage door, outdoor lighting and security gate.

INTERIOR FEATURES

COMFORT/CONVENIENCE FEATURES

Standard:

- **RETAINED ACCESSORY POWER** allows the radio, power windows, and other power features to remain operable until a door is opened or for up to 20 minutes after the ignition has been turned off.
- **ADJUSTABLE SAFETY BELT GUIDE LOOPS** allow the front shoulder safety belts to be adjusted up and down to fit occupants more comfortably.
- **SCOTCHGARD™ PROTECTION** helps protect cloth seating surfaces and door panel trim from stains and makes cleanups easy.
- **BATTERY-RUNDOWN PROTECTION** automatically turns off any light left on after 20 minutes with the ignition off.
- **DELAYED INTERIOR LIGHTING** automatically keeps dome lamp on for fifteen seconds after front doors are closed or until the vehicle is started.
- **FOUR STANDARD REAR CARGO TIE-DOWNS** secure cargo.
- **AIR CONDITIONING**, standard on Base-level and LS, helps keep interior cool and comfortable.

Optional:

- **TILT-WHEEL STEERING COLUMN**, tailors the wheel to the most comfortable, individualized steering position.
- **ELECTRONIC SPEED CONTROL** helps ease driver work load.

LTZ:

- **CUSTOM OVERHEAD CONSOLE** (standard with front high-back bucket seats), features map reading lights, garage door opener storage compartment, eyeglass storage, dome lamp, electronic compass and outside temperature readout.
- **POWER WINDOWS AND LOCKS** adds extra convenience for driver and passengers.
- **POWER REAR WINDOW RELEASE** allows driver to unlock rear window from inside the vehicle

LTZ-Door only seats:

- **ELECTRONIC CLIMATE CONTROL** automatically adjusts fans speed and operating mode to maintain constant temperature.
- **DELUXE OVERHEAD CONSOLE**, features map reading lights, Homelink transmitter, electronic compass and outside temperature readout.

SOUND SYSTEMS

Blazer sound systems enter a new level of sound reproduction for 1999 with the introduction of two Bose "concert level" sound systems. Featuring six speakers and famous Bose sound technology, these new systems mean that now there is a sound system to suit virtually every Blazer owner's taste. New, too, is a multiple CD changer which is available with uplevel and premium sound systems.

Steering wheel-mounted radio controls also join the Blazer sound system family for 1999.

Standard:

- **ELECTRONICALLY TUNED AM-FM STEREO** with seek-scan, digital clock and four premium speakers.

Optional:

- **ELECTRONICALLY TUNED AM-FM STEREO** with cassette player, seek-scan, digital clock and four premium speakers.

LS and LTZ:

- **ELECTRONICALLY TUNED AM-FM STEREO WITH CASSETTE PLAYER**, TheftLock security, Search and Repeat, seek-scan, graphic equalizer, digital clock, automatic tone control, speed-compensated volume and six premium speakers.

BLAZER.

1999 CHEVROLET BLAZER

Options on LS and LT

- ELECTRONICALLY TUNED AM-FM STEREO WITH COMPACT DISC PLAYER, TheftLock security, Search and Repeat, seek-scan, graphic equalizer, digital clock, automatic tone control, speed-compensated volume and six premium speakers. CD random select and CD-in-play/radio switching.
- ELECTRONICALLY TUNED AM-FM STEREO WITH COMPACT DISC PLAYER. REMOTE FLOOR CONSOLE-MOUNTED CASSETTE PLAYER. TheftLock security, speed-compensated volume, automatic tone control, CD random select and CD-in-play/radio switching (requires bucket seats and automatic transmission).

NEW BOSE PREMIUM SOUND SYSTEM AM-FM STEREO WITH CASSETTE PLAYER features Bose amplifiers, equalization networks and six speakers.

NEW BOSE PREMIUM SOUND SYSTEM AM-FM STEREO WITH CD PLAYER, features Bose amplifiers, equalization networks and six speakers.

NEW MULTIPLE-DISC CD CHANGER in console, available with uplevel and premium sound systems featuring magazine-style storage for up to six discs, multi-disc random play; seek to next or previous track and advance to next higher disc.

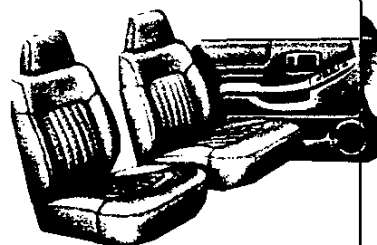

SEATS

Blazer seating is enhanced for 1999 with the addition of a memory driver seat adjuster (interim availability), standard on LT, and an available power passenger seat. Blazer seat designs provide firm torso support while "controlled contour" seatback cushions and lumbar support enhance comfort. In addition, all front seating features a full-suspension design with comfortable, supportive foam cushioning that helps absorb road shocks before they reach the occupant. Double-stitched French seams increase the strength and durability of the seat trim. The new TrailBlazer model features Two-Tone Beige leather seating surfaces, underscoring this new vehicle's "outdoors" theme.

4-Door Base

- 60/40 split-bench seat with recliners and fold-down armrests with storage compartment. Also available on 4-Door LS models (not available on 2-Door).

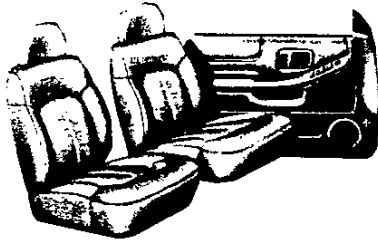

2-Door and 4-Door LS

- Custom Cloth reclining high-back bucket seats, manual adjustable lumbar supports. Easy-entry passenger side (2-Door only).

1999 CHEVROLET BLAZER

BLAZER.

4-Door LT

- Custom Leather reclining high-back bucket seats with 8-way power driver and front-passenger seats with power lumbar adjustment and memory driver seat adjuster (interim availability) — standard on LT.

- Premium Cloth reclining high-back bucket seats, with 8-way power driver and front-passenger seats with power lumbar adjustment and memory driver seat adjuster (interim availability) — optional on LT.

Interior Features

- NEW** EIGHT-WAY POWER DRIVER AND NEW POWER PASSENGER-SEAT ADJUSTER, standard on 4-Door LT models, feature electric multi-function control with power lumbar supports and four-way manual adjustable head restraints.
- NEW** DRIVER MEMORY SEAT ADJUSTER (interim availability — LT models only), allows for two memory setting positions.
- NEW** SIX-WAY POWER DRIVER AND NEW POWER FEATURE ON FRONT-PASSENGER SEATS available on Blazer LS models (power front-passenger seats are available on 4-Door models only).
- 60/40 SPLIT-BENCH REAR SEAT with independently folding backrests and self-stowing outboard head restraints are standard on all 2-Door models.

- 60/40 SPLIT-BENCH REAR SEAT with independently folding backrests and self-stowing outboard head restraints are standard on all 4-Door models.

Interior Colors and Materials

- Beige
- Graphite
- Medium Gray

EXTERIOR / STRUCTURAL FEATURES

The Blazer sporty exterior was designed to please style-conscious buyers. The big news for 1999 is the introduction of the new TrailBlazer with an attention-getting "outdoors" theme.

EXTERIOR FEATURES

- NEW TrailBlazer** TrailBlazer is sure to have wide appeal for those who love to explore the great outdoors. Available on 4-Door LT models, TrailBlazer features:
 - monochromatic paint scheme
 - unique aluminum wheels
 - rocker moldings.

Windows

- NEW** LARGER OUTSIDE MIRROR is designed to help increase driver rearward visibility. New bi-folding feature allows folding forward or backward in the event the driver accidentally contacts a stationary object.

- LIFTGATE WITH INTEGRAL LIFTGLASS (4-DOOR ONLY) OR A TAILGATE WITH LIFTGLASS (2-DOOR AND 4-DOOR) is offered for convenient rear access.
- SEMI-FLUSH-MOUNTED GLASS helps reduce exterior wind noise.
- TWO-SIDE GALVANIZED STEEL EXTERIOR BODY PANELS (except the roof) provide a corrosion-resistant exterior which virtually eliminates corrosion that results from surface scratches and stone chips.
- TRIPLE-SEALS on doors help keep dust, moisture and wind noise outside.

BLAZER.

1999 CHEVROLET BLAZER

- **SOLAR-RAY TREATMENT** on all Blazer glass surfaces keeps the interior temperature of the vehicle significantly lower than vehicles with regular tinted glass.
- **SWING-OUT REAR-QUARTER WINDOWS** (standard on 2-Door models) help increase ventilation to rear-seat passengers.

Optional:

- **ELECTRIC SUNROOF** with tilt-and-slide design that features a wind deflector, sunshade and express-open control is available on LS and LT models.
- **SWING-AWAY EXTERIOR SPARE TIRE MOUNT**, optional on 2-Door 4x4 models, provides unobstructed rear cargo-carrying capability.
- **ROOF-MOUNTED LUGGAGE RACK**, standard on LS and LT models, available on base-level models, has adjustable cross bars that can be repositioned without tools.

STRUCTURAL FEATURES

Engineers designed the Blazer body with the goal of providing a solid, quiet ride, free from engine noise, road noise and vibration.

Blazer uses a ladder-type frame with boxed rails and steel crossmembers for chassis strength. The boxed front section adds structural support for the engine and front suspension.

EXTERIOR PAINT/COLORS

Standard basecoat/clearcoat paint on Blazer resists fading and provides a high gloss shine for long-lasting exterior beauty.

NEW Paint Colors For '99

- Sunset Gold Metallic
- Meadow Green Metallic
- Victory Red.

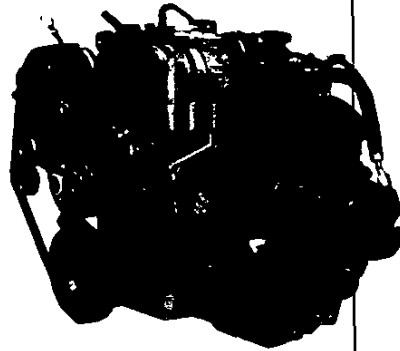

Other Colors:

- Medium Beige Mystique Metallic
- Onyx Black
- Summit White
- Dark Cherry Red Metallic
- Light Pewter Metallic
- Indigo Blue Metallic
- Dark Copper Metallic.

DESIGN AND MANUFACTURING

The Blazer design and engineering process began with extensive customer-driven research into the needs and wants of current and potential sport utility owners. Chevrolet engineers incorporated many design aspects taken from these studies into the overall structure of Blazer. Blazer is manufactured at General Motors assembly plants in Linden, N.J. and Moraine, Ohio.

ENGINES

VORTEC 4300 V6 ENGINE (L35)

A Vortec 4300 V6 engine with Sequential Fuel Injection (SFI) is standard on Blazer.

Power ratings for the 4300 V6 engine:

- 190 HORSEPOWER at 4400 rpm
- 250 LB.-FT. OF TORQUE at 2800 rpm.

300 technical features:

- **SEQUENTIAL FUEL INJECTION**, standard on all 1999 Blazer models, optimizes fuel economy, power output and the ability to meet today's stringent emissions control requirements.

1999 CHEVROLET BLAZER

BLAZER.

High-Precision Fuel Control

- High-precision fuel control — uses one injector and nozzle per cylinder for optimum cylinder-to-cylinder fuel distribution.
- Each injector is fired sequentially and timed to the intake cycle for accuracy and metering control. (With non-SFI engines, fuel is injected once per engine revolution through all injectors at the same time. With SFI, timing is much more precise, thus making possible performance improvements across the board.)
- A mass airflow meter constantly measures the engine's air requirements under varying conditions, such as changes in load, altitude and temperature. In an SFI system, the mass airflow meter is essential for accurate fuel delivery.
- The injector nozzle's design and optimum location produce an spray pattern that contributes to the engine's smooth idle and outstanding fuel-efficiency.

Extended-Service-Interval Maintenance

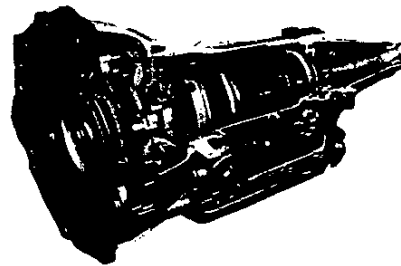

- PLATINUM-TIP SPARK PLUGS help Vortec engines travel up to 100,000 miles* before their first scheduled tune-up.
- OIL LIFE SERVICE — no need to check — ever.
- EXTENDED-LIFE ENGINE OIL is good for up to 5 years or 150,000 miles,* whichever comes first.
- LONG-DRIVE ENGINE OIL FLUID means Blazer can go for 50,000 miles* before its first scheduled transmission fluid change.
- ALTERNATIVE ACCESSORY DRIVE BELT helps keep replacement costs lower compared to traditional V-belt designs.

*Maintenance needs vary with different uses and driving conditions. See owner's manual for more information.

TRANSMISSIONS

5-SPEED MANUAL TRANSMISSION

A 5-speed manual transmission is available on 2-Door Blazer models only. The 5-speed's short-throw shifter is designed for a crisp feel through all gears. The first gear ratio is 3.49:1, providing responsive acceleration. A fifth gear overdrive (0.78:1) reduces engine rpm at cruising speed for increased fuel economy and optimum engine life.

4L60-E 4-SPEED ELECTRONIC AUTOMATIC TRANSMISSION

GM's 4L60-E 4-speed automatic overdrive transmission is standard equipment on all Blazer models. The 4L60-E's "intelligent" electronic controls allow the transmission to match the engine's performance, delivering outstanding fuel-efficiency.

NEW FEATURES

NEW MAMAC PUMP COVER SERVO provide for better sealing.

NEW CLUTCH PLATE MATERIAL is designed to improve durability and performance.

- WIDE RANGE OF GEAR RATIOS in the 4L60-E enhances both performance and fuel economy. The 3.06:1 first-gear ratio provides high torque multiplication for initial acceleration. The overdrive 0.70:1 fourth gear lowers engine rpm at highway speeds, providing enhanced fuel economy and minimizing wear.
- POWERTRAIN CONTROL MODULE (PCM) in the 4L60-E provides precision and flexibility. It measures key vehicle input, including throttle position, vehicle

BLAZER.

1999 CHEVROLET BLAZER

speed, gear range, temperature and engine load. Four solenoids connected to the PCM control shift points and help promote shift smoothness.

- **VIRTUALLY SEAMLESS OPERATION** is made possible, since the PCM acts as an interface between the engine and transmission.
- **SHIFT-TIMING** is controlled electronically by signals sent to the valve body's shift solenoids, which activate the shift valves and execute the gear changes.
- **BRAKE TRANSMISSION SHIFT INTERLOCK** is standard. The interlock requires the driver to apply the brake pedal to shift out of Park.
- **SECOND-GEAR-START FEATURE** provides an extra measure of control in hazardous driving conditions. The driver can reduce torque to the drive wheels by moving the gear selector to the Drive 2 position, thereby increasing control during initial acceleration on slippery surfaces.
- **AUTOMATIC TRANSMISSION FLUID** in the 4L60-E has a fluid change interval of 50,000 miles* under normal operating conditions.

*Maintenance needs vary with different uses and driving conditions. See owner's manual for more information.

FOUR-WHEEL DRIVE SYSTEM

INSTA-TRAC SYSTEM

- **"ON THE FLY" SHIFTING**, from 2WD to 4WD Hi and back at any speed is possible with the Insta-Trac system. Standard on 4x4 models, Insta-Trac makes it easy to shift into and out of four-wheel-drive without leaving the cab. The system also includes a 4WD low gear for more demanding 4WD maneuvers such as climbing steep grades or driving through deep snow or mud (vehicle must be stopped to shift into 4-LO).

AUTOTRAC PUSH-BUTTON ACTIVE TRANSFER CASE

- **OPTIONAL AUTOTRAC SYSTEM**, selected with the Auto 4WD button, is capable of automatically engaging four-wheel drive for maximum traction.

This system is not all-wheel drive, but more accurately termed a standby four-wheel-drive system. Autotrac provides 100 percent rear-wheel drive until road conditions warrant a change. When extra traction is needed, an electronic control module activates an electronic motor to transfer the torque between the front and rear wheels — all within a time frame that can be measured in fractions of a second. Once the speeds of the front and rear prop shafts are equalized (traction is regained), the transfer case returns to its standby mode until another speed differential occurs. If multiple, large slip events are detected for a sustained time, the system locks into the 4HI (four-wheel-drive high) mode to protect the system's electric actuator motor. After a time, the system returns to the automatic 4WD standby mode. Autotrac also features a transfer case neutral position for easy towing behind a recreational vehicle.

SUSPENSION

FRONT

- **INDEPENDENT SHORT LONG ARM (SLA)** front suspension with stabilizer bar equips the front of every Blazer model. SLA Suspension helps the front wheels "step" over bumps independently for a stable ride and enhanced control, while keeping the tires fully in contact with the road for less tire wear and better traction.
- **TWO-WHEEL-DRIVE MODELS** have computer-selected, friction-free coil springs for squeak-free operation.
- **FOUR-WHEEL-DRIVE MODELS** are equipped with computer-selected torsion bars for optimum ride and handling. The front differential is mounted to the frame with rubber bushings to isolate road bumps and jolts. The independent front suspension minimizes the protrusion of the transmission, transfer case and driveshafts below the body for additional protection when traveling over uneven terrain.

1999 CHEVROLET BLAZER

REAR

- **LONG REAR AXLE AND VARIABLE-RATE, TWO-STAGE, MULTILEAF SPRINGS** comprise the rear suspension. The longer set of leaves provides a smooth ride when the vehicle is unloaded or lightly loaded. As additional passengers and cargo are added, the longer leaves flatten out, and shorter, stiffer leaves deliver additional support without sacrificing a comfortable ride.

DRIVER CONTROL SYSTEM

- All Blazer models feature the Driver Control System. Its features are designed to provide a precise integration of suspension, steering and chassis components for enhanced driving control in virtually any situation. Components include:
 - A rock-solid structure with a heavy steel ladder-type frame, boxed to the rear axle for torsional rigidity
 - Variable-ratio power steering with a tuned spool valve that provides tight control for highway/road driving and easy steering in tight parking lot situations
 - Tuned tires are designed to handle dry pavement or wet and snowy conditions while delivering a quiet ride
 - Large diameter drop-link front and rear stabilizer bars help control body lean when cornering
 - Urethane jounce bumpers are oversized to help absorb impact as the auxiliary rear springs engage. This also helps reduce "mule-like" kick-back some other truck suspensions deliver when they hit a bump unloaded.

SUSPENSION CHOICES

Blazer offers one of the widest suspension choices on the market, providing distinct choices to meet the driving requirements and demands of any driving situation, from highway driving to serious off-roading. These packages coordinate components to a specific driving need, including springs, shock absorbers, stabilizer bars and tires. There are three suspension packages for 4-Door models and four suspension packages for 2-Door models.

2-DOOR SUSPENSION CHOICES

- **Z85** (standard on 2-Door) and **Z86** (standard on 4-Door) **WORTH-RIDE SUSPENSION** are ideal for everyday city and highway driving and light-duty trailering. They provide a smooth soft ride and excellent handling.
- **Z85 TOURING RIDE SUSPENSION**, available on 2- and 4-Door models, utilizes premium Bilstein or de Carbon monotube high pressure gas shock absorbers and firm spring rates for a taut, well controlled ride.
- **Z177 PREMIUM RIDE SUSPENSION**, available on 4-Door models, utilizes premium gas charged shock absorbers for an exceptionally smooth ride. Ideal for heavy-duty trailering.
- **Z156 4X4 OFF-ROAD SUSPENSION**, available on 2-Door 4x4 models, utilizes extra-large 46mm Bilstein high pressure gas-charged shock absorbers which provide exceptional control in off-road driving situations.
- **ZR2 WIDE-STANCE SPORT PERFORMANCE PACKAGE**, available on the 2-Door Blazer LS 4x4 model, accommodates serious off-road driving enthusiasts. It utilizes a unique chassis with a 4-inch-wider tread, reinforced frame and the ZR2 Firm Ride Suspension which includes:
 - 46mm Bilstein pressurized shocks
 - 3.9-inch-wider tread in front and rear
 - 31" x 10.5" R-15 on- /off-road tires
 - specific strengthened front differential gears and drive axles
 - specific rear axle with an 8.5" ring gear
 - larger rear wheel bearings
 - longer, larger diameter axle shafts
 - a specific rear suspension with revised rear multi-leaf springs
 - rear axle track bar.

STEERING

Blazer features a variable-ratio (16:1 to 13:1) steering gear with a specially tuned spool valve. This gear provides quick, responsive steering with reduced turns lock-to-lock, making tight driving situations and parking easier.

BLAZER.

1999 CHEVROLET BLAZER

BRAKES

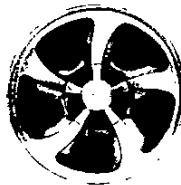

- **FOUR-WHEEL DISC BRAKES** are standard on all Blazer models for impressive braking action, even under wet conditions. This system dissipates heat more effectively than drum brakes, helping to reduce brake fade. Benefits include impressive brake pedal feel, pedal force, response time, high altitude performance and brake-wear life (as much as double). The brake system is split diagonally into two separate circuits so that one circuit continues to assist in braking even if the other circuit fails.
- **AUDIBLE DISC BRAKE PAD-WEAR SENSORS** alert the driver when brake pad maintenance is needed.
- **FOUR-WHEEL ANTILOCK BRAKE SYSTEM** is standard. Some things to keep in mind about antilock brakes:
 - ABS helps maintain steering control during severe braking situations by reducing wheel lockup on most slippery surfaces. All the driver has to do is maintain pressure on the brake pedal and steer the vehicle.
 - ABS adjusts brake pressure by modulating the brakes several times per second, a rate even most skilled professional drivers cannot attain physically.
 - The system modulates the brake-line pressure at the wheels. Drivers should not "pump" the brakes in emergency braking situations. Rather, they should maintain constant pressure on the brake pedal, allowing the system to work effectively.

WHEELS AND TIRES

WHEELS

- **STEEL WHEEL** is standard on base-level 2WD models and base-level 4x4 models. Includes black hubcap and bright trim ring (4x4 wheel shown).

- **ALUMINUM TORQUED 5-SPOKE WHEEL** with bright machined-face and argent-painted accents. Included on 2WD models with LS or LT trim. Optional on base-level 2WD models. Standard on the new TrailBlazer 2WD model (gold accents).

- **ALUMINUM 6-SPOKE WHEEL** is included with LS trim on 4-Door 4x4 models. Optional on base-level 4-Door 4x4 models.

- **ALUMINUM FLAT 5-SPOKE WHEEL** with bright machined-face and medium gray accents. Included with LS trim on 2-Door 4x4 models. Optional on base-level 2-Door 4x4 models. Standard on the new TrailBlazer 4x4 model (gold accents).

- **ALUMINUM DIRECTIONAL WHEEL** with bright machined-face and black accents. Included with LT trim on 4-Door 4x4.

1999 CHEVROLET BLAZER

BLAZER.

TIRES

- P205 75R-15 all-season steel-belted radial black-wall tires are standard on all Base-level models.
- P205 75R-15 all-season steel-belted highway White Outline Lettered radial-ply tires are optional with the Smooth Ride Suspension Package.
- P235 70R-15 all-season steel-belted highway radial-ply blackwall tires are standard with the Touring Ride and Premium Ride Suspension Packages.
- P235 70R-15 all-season steel-belted highway radial-ply white outline lettered radial tires are available on Touring (Z85) and Premium Ride Suspension Packages.
- P205 75R-15 on-/off-road steel-belted radial white outline-lettered tires are standard with ZM6 and optional with Touring Ride (Z85). Standard on TrailBlazer 4x4 models.
- 31 X 10.5" P235 75R15 on-/off-road steel-belted radial blackwall tires are standard on the ZR2 Wide-Stance Sport Performance Suspension Package only.

HISTORY

(BY MODEL YEAR)

- 1983 — Introduced as a new model featuring the Insta-Trac 4x4 system.
- 1986 — Electronic Fuel Injection on optional 2.8 Liter V6.
- 1988 — Optional Vortec 4.3 Liter V6 engine with Electronic Fuel Injection, serpentine-drive belt.
- 1989 — Rear-wheel antilock brakes and electronic speedometer; transfer case.
- 1990 — 4.3 Liter V6 engine with Electronic Fuel Injection is standard; new standard 5-speed manual transmission with overdrive; significant increase in standard equipment; new Gross Vehicle Weight Rating system.
- 1991 — Introduction of 4-Door model in 2WD or 4x4 with 4-wheel antilock brake system.
- 1992 — 4-wheel antilock brake system standard for all models; optional new electronic shift transfer case for 4x4 models; self-aligning steering wheel.
- 1993 — Enhanced 4.3 Liter V6 with Central-Port Fuel Injection and 4L60-E 4-speed automatic electronic transmission introduced.
- 1995 — All-new redesigned model with 4-wheel ABS, driver air bag; five chassis packages introduced.
- 1996 — Improved Vortec 4300 V6 engine introduced.
- 1997 — New liftgate with integral liftglass; sunroof option, ZR2 Wide-Stance Sport Performance Package introduced.
- 1998 — New front end enhancements, Daytime Running Lamps with Automatic Exterior Lamp Control, 4-wheel disc brakes, right front-passenger Next Generation air bag, Passlock® theft deterrent and battery-rundown protection introduced.

BLAZER

1999 CHEVROLET BLAZER

CHEVROLET INTERNATIONAL

The Blazer is sold in other countries besides the U.S. In many cases, changes are made in the vehicle's specifications to meet the unique demands of those markets and/or comply with local regulations. Additionally, these products sometimes fill a very different role in non-U.S. markets. If you need to know what the differences are, in specifications or marketing strategies, in any given country, please look in the Chevrolet International section of this publication to identify the right GM person to contact for that kind of information. Chevrolet Communications (U.S.) does not have those details.

AFFINITY RELATIONSHIPS

Because Chevrolet offers the most comprehensive lineup of cars and trucks of any automotive manufacturer, it goes without saying that there is a product for virtually everyone, whatever their needs. From the bass fisherman who needs a reliable truck to tow his fishing boat, to the soccer mom who needs a dependable van to get the team to the field, Chevrolet can offer a vehicle to fit anyone's lifestyle.

With this in mind, Chevrolet created what has come to be known as "Affinity Marketing." Through it, Chevrolet has developed relationships with over eighty lifestyle organizations, sporting groups and spokespeople that represent the image of Chevrolet cars, trucks and the people who drive them. These relationships help Chevrolet market its products and services while offering marketing support to groups like the United States Figure Skating Association and Ducks Unlimited. Affinity Marketing also builds relationships with individuals. These people reflect the Chevrolet vision of excellence, like 1998 Olympic Gold Medalist Tara Lipinski and country music star George Strait.

Blazer has affinity relationships with:

- Bass Pro Shops
- Big Cedar Lodge
- Deer Valley Resort
- East Coast Fisherman
- Mad River Canoe
- Team Chevy ZR2 Trebron
- U.S.A. Cycling (NORBA — National Off Road Bicycle Association)
- U.S. Ski Team
- Vail Associates.

For more information, call 1-800-CHEVY-MI.

BLAZER

GENUINE CUSTOMER CARE

Chevrolet owners are covered by Genuine Customer Care, a comprehensive owner protection plan that includes the following:

NEW VEHICLE LIMITED WARRANTY

This warranty is for GM vehicles in the United States. Owners should see their Chevrolet dealer for complete terms and conditions of this New Vehicle Limited Warranty. Items covered for 3 years or 36,000 miles* for manufacturer's defects include:

- The complete vehicle
- Tires
- Towing to the nearest Chevrolet dealership
- Sheet-metal coverage:
 - Corrosion coverage
 - Rust-through coverage †
- Repairs made to correct any vehicle defect
- No charge for most warranty repairs.

*Whichever comes first. †6 years or 100,000 miles, whichever comes first.

COURTESY TRANSPORTATION

Retail customers who purchase or lease a 1999 Chevrolet Blazer are eligible for Courtesy Transportation when their vehicles are left at a participating dealership for repairs covered under the 3-year/36,000-mile* New Vehicle Limited Warranty. Courtesy Transportation, at participating dealerships only, may include shuttle service, expense reimbursement or, if the repairs require leaving the vehicle overnight, alternate transportation. Actual services may vary at the election of the participating dealer. Owners should see their dealer for details.

ROADSIDE ASSISTANCE*

Roadside Assistance service is provided through a toll-free 800 number, 24 hours a day, 365 days a year. Roadside Assistance advisors can assist with minor mechanical concerns over the phone or coordinate a variety of services through professional service providers.

Basic Care provides:

- Free towing for warranty repairs (to closest dealer)
- Over-the-phone basic technical advice
- Available dealer services at reasonable costs (i.e., wrecker services, locksmith/key service, glass repair, etc.).

Roadside Basic Care covers you as long as the owner owns their Blazer.

Courtesy Care provides:

- Free towing (to closest dealer)
- Free locksmith/key service (when keys are lost on the road or locked inside)
- Free flat tire service, jump start and fuel delivery.

Roadside Courtesy Care is available for a period of 3 years or 36,000 miles* (whichever comes first).

Roadside Assistance membership is free. Some services may incur costs. Courtesy Care is available to retail, retail lease and corporate lease customers operating 1994 and newer Chevrolet vehicles for a period of 3 years/36,000 miles, whichever comes first. All Courtesy Care services and associated costs must be prearranged by Chevrolet Roadside Assistance or dealer service management and must be driver-initiated. Basic Care and Courtesy Care are not part of, or included in, the coverage provided by the New Vehicle Limited Warranty. Chevrolet reserves the right to modify or discontinue Basic Care and Courtesy Care at any time. Owners should see their dealer for complete details of the Chevrolet Roadside Assistance Program.

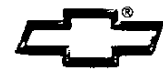

An important word about this document: We have tried to make this document as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in colors, materials, equipment, specifications, models and availability. Some information may have been updated since the time of printing in June, 1998.

A note about air bags: Always use safety belts, even with Next Generation air bags. See owner's manual for more safety information.

Some artwork contained within this text is for representation purposes only.

Focus

4-Door Blazer 4x4 with LS Decor with Preferred Equipment Group (PEG) 1SC (image above)

Ordering recommendations:

Recommended Blazer content, based on anticipated national sales volume, is listed below to assist your dealership in ordering.

LS Decor and PEG 1SC includes:

- Tilt-Wheel™ Steering Column and Electronic Speed Control
- Aluminum Wheels
- Reclining High-Back Bucket Seats*
- Power Windows, Door Locks and Mirrors
- Overhead Console
- Tachometer
- Premium Suspension Package (ZW7)†
- P235/70-R15 All-Season Steel-Belted Radial Tires
- ETR AM/FM Stereo with Seek-Scan, Cassette Player, Digital Clock and Six Speakers
- Liftglass with Liftgate** and Luggage Carrier
- Heated Electric Remote Outside Mirrors.

*May substitute AM6 60/40 Reclining Split-Bench Seat (deletes overhead console). †May substitute Z85 Touring Suspension. **May substitute Tailgate.

Popular colors: Onyx Black, Summit White, Indigo Blue Metallic, Light Pewter Metallic and Meadow Green Metallic.

Blazer Owners ... a Closer Look

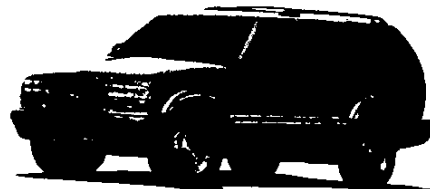

The impressive driving security of Blazer attracts a buyer who wants to rise above the challenges of daily driving, such as bad weather and road hazards. Typically in their mid-30s to late 40s, Blazer owners find its truck-like capability and enjoyable ride a good fit with their work-hard and play-hard lifestyles.

About Dealer Order Guide inserts

The Dealer Order Guide inserts are your first look at Chevy Truck models for 1999. This information is preliminary and is subject to change. Use these inserts to assist in ordering your initial shipments. Most of your volume should come from the Focus vehicle, which is the model chosen for its saleability. It is equipped with the product features that customers want most. (Model, PEG and optional equipment vary by region.) Refer to the Retail Sales Analysis (RSA) to verify or select your dealership's Focus vehicle content. There is also the Feature vehicle, which is the "image" model Chevrolet will profile most in its advertising. This vehicle is meant to capture attention and create consumer awareness.

Feature

4-Door Blazer 4x4 LT with PEG 1SD (image below)

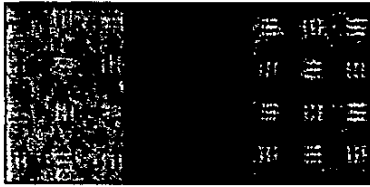

LT Decor with PEG 1SD includes:

- Tilt-Wheel™ Steering Column and Electronic Speed Control
- Self-Dimming Inside Rearview Mirror
- Self-Dimming Driver-Side Outside Mirror
- Leather Seating Surfaces* and Leather-Wrapped Steering Wheel
- Eight-Way Power Driver and Front-Passenger Seats
- Two-Position Driver Seat Memory Feature
- Power Windows, Door Locks and Mirrors
- Overhead Console and Rear Compartment Shade
- Premium Suspension Package (ZW7)†
- P235/70-R15 Tires and Aluminum Wheels
- ETR AM/FM Stereo with Seek-Scan, Cassette Player, Digital Clock and Six Speakers
- Remote Keyless Entry with Content Theft Alarm
- HomeLink 3-Channel Programmable Transmitter
- Foglamps
- Electronic Climate Control
- Liftglass with Liftgate** and Luggage Carrier.

*May substitute Premium Cloth trim. †May substitute Z85 Touring Suspension. **May substitute Tailgate.

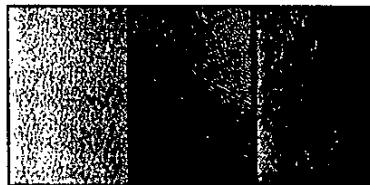

Trim Colors

Custom Cloth available in Beige, Graphite and Medium Gray — standard on Base, LS.

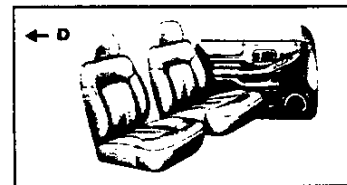

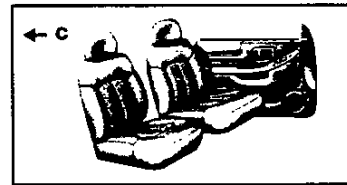

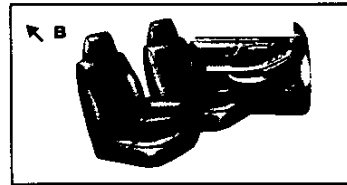

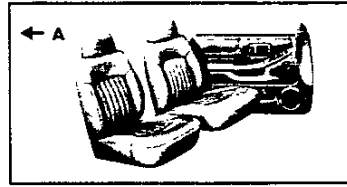

Premium Cloth available in Beige, Graphite and Medium Gray — available on LT.

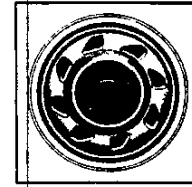

Custom Leather seating surfaces available in Beige, Graphite and Medium Gray — standard on LT.

Most Popular Exterior Colors by Percentage

Clockwise, at left, are the five colors anticipated to be the most popular Blazer choices for 1999, based on national sales volume. They are listed for reference only. To identify the top-selling colors in your area by model, use the Retail Sales Analysis (RSA).

Onyx Black (#41)	15%
Summit White (#50)	14%
Indigo Blue Metallic (#39)	13%
Light Pewter Metallic (#11)	12%
Meadow Green Metallic (#68)	12%
Other colors	34%

NOTE: New Blazer exterior colors are Sunset Gold Metallic (#60), Meadow Green Metallic (#68) and Victory Red (#74). Emerald Green Metallic (#43) and Apple Red (#72) have been cancelled.

Blazer

P.D.S.E.I. is a term used to help organize and explain key features and benefits in five major categories a customer needs and wants. Overall improvements, changes and deletions are highlighted. Please review the supplied information, keeping in mind that this material is provided to you before production start-up — and may change.

P.D.S.E.I. (New-for-'99 features appear in green.)

PERFORMANCE

• **AUTOTRAC ACTIVE TRANSFER CASE** (4x4 models) — automatically switches between 2WD and 4WD, based on road conditions. • **AUTOMATIC TRANSMISSION ENHANCEMENTS** — Vamac pump cover seals make possible better sealing. New clutch plate material is used, which is designed for improved durability and performance. • **STANDARD VORTEC 4300 V6 SFI ENGINE** — delivers smooth, spirited performance. • **DRIVER CONTROL SYSTEM** — helps provide impressive driving security.

DURABILITY

• **BATTERY-RUNDOWN PROTECTION** — helps prevent a dead battery. • **PLATINUM-TIP SPARK PLUGS** — help Vortec engines travel up to 100,000 miles before the first scheduled tune-up.* • **EXTENDED-LIFE ENGINE COOLANT** — has a first scheduled replacement interval of 5 years or 150,000 miles, whichever comes first.* • **BUMPER TO BUMPER WARRANTY** — a 3-year/36,000-mile, no deductible, limited warranty, 24-Hour Roadside Assistance via a toll-free hot line and Courtesy Transportation,† if vehicle ever needs warranty work.

SAFETY

• **FLASH-TO-PASS** — allows driver to flash high-beam headlamps as a passing signal. • **CONTENT THEFT ALARM** (on vehicles with Remote Keyless Entry) — unauthorized entry at any passenger door automatically triggers lights and horn. For further convenience, and to increase personal security, the interior is illuminated whenever the door handle is lifted. • **OUTSIDE, POWER HEATED MIRRORS** (driver-side self-dimming on LT models) — larger glass area than mirrors on last year's models helps driver's rearward visibility in inclement weather. • **LIFTGLASS-AJAR** — provides telltale warning if liftglass is not properly secured. • **NEXT GENERATION DRIVER AND RIGHT FRONT-PASSENGER AIR BAGS** WITH KNEE BOLSTERS** — designed to be used with safety belts to help protect against injury in certain moderate to severe frontal collisions. • **LOCKOUT PROTECTION** — prevents doors from locking if keys are inadvertently left in the ignition. • **4-WHEEL DISC ANTI-LOCK BRAKE SYSTEM (ABS)** — standard on all models, reduces wheel lockup while braking hard on most slippery surfaces. • **4-WHEEL DISC BRAKES** — provide impressive stopping power.

EXTERIOR

• **TrailBlazer DECOR PACKAGE** (LT 4-Door 4x4 models only — interim availability) — features monochromatic exterior, Z85 Touring Suspension, unique aluminum wheels and unique Two-Tone leather interior with floor-mounted transmission shifter. • **THREE NEW EXTERIOR COLORS** — Sunset Gold Metallic, Meadow Green Metallic and Victory Red. • **LIFTGATE WITH INTEGRAL LIFTGLASS** — easy to open and provides flexibility of use. Standard on LS and LT models. The liftglass/dropgate, standard on Base models, is also available for LS and LT models. • **BASECOAT/CLEARCOAT PAINT** — not only provides a durable, lustrous finish, but also reduces the severity of water-spotting and etching from acid rain. • **TWO-SIDE GALVANIZED STEEL** — on major exterior body panels (except roof), makes additional rustproofing unnecessary.

INTERIOR

• **POWER FRONT-PASSENGER SEAT** — available on LS and standard on LT, features fore/aft, tilt, up/down and, on LT models, a power recliner. • **MEMORY SEAT ADJUSTER** (LT model driver seat only) — features two settings with 8-way seats for greater customer satisfaction. • **STEERING WHEEL-MOUNTED SOUND SYSTEM CONTROLS** — an option provides convenient control for mute, program, seek and volume. • **BOSE PREMIUM SOUND SYSTEM** — features superior "concert-level" sound quality and six Bose speakers, available with some sound systems. An optional multiple CD changer may be added. • **MULTIPLE CD CHANGER** — available with premium and some uplevel sound systems. Magazine-style holds up to six discs. • **SCOTCHGARD™ PROTECTOR** — on cloth seats, door trim panels and carpet. Resists stains for easy cleanup.

*Maintenance needs vary with different uses and driving conditions. See owner's manual for details. **Always use safety belts and proper child restraints, even with Next Generation air bags. See owner's manual for more safety information. †At participating dealerships.

- Jeep Grand Cherokee
- Toyota 4-Runner
- Dodge Durango

New for 1999

- TrailBlazer (interim availability), a new decor package available on 4-Door 4x4 LT models, boasts styling features that say "outdoors" to admiring observers. Included are unique aluminum wheels, Z85 Touring Suspension, monochromatic exterior with bronze emblems and unique Two-Tone leather interior with floor-mounted transmission shifter.
- An Autotrac active transfer case replaces the 2-speed electronic shift transfer case. Autotrac, in ATC mode, is standby 4WD, providing 100 percent rear-wheel drive until road conditions call for a change to split torque between front and rear wheels. Once speeds of front and rear prop shafts are equalized, the transfer case automatically returns to its standby mode until another speed differential occurs.
- An available Bose premium sound system features an amplifier and six Bose speakers.
- A multiple CD changer is available with some uplevel sound systems and all Bose sound systems
- Available steering wheel-mounted sound system controls provide convenient control for mute, program, seek and volume.
- Flash-to-pass feature allows drivers to flash their high beams as a passing signal. Feature operates in both Daytime Running Lamps and low-beam mode, but does not function when high-beams are on.
- Liftglass-ajar warning light provides a telltale warning that the liftglass is not secured.
- Content theft alarm (included with Remote Keyless Entry) triggers an alarm system which activates headlamps and horn when unauthorized entry is attempted.
- Interior lights are illuminated when the door handle is lifted.

New for 1999 (contd.)

- Six-way power driver and front-passenger seats available on LS models and 8-way power driver and front-passenger seats standard on LT models. LT models also feature a two-position memory feature for the driver seat.
- Automatic transmission enhancements include Vamac pump cover seals which make possible better sealing. A new clutch plate material is used which is designed for improved durability and performance.

Deletions

- Two exterior colors have been deleted for 1999: Emerald Green Metallic and Apple Red and have been replaced by three new exterior colors: Sunset Gold Metallic, Meadow Green Metallic and Victory Red.

1999 BLAZER HIGHLIGHTS

NEW FOR 1999

EXTERIOR

- New larger outside mirrors for improved visibility
- New larger outside power heated mirror (standard with LS models, LT models also include a self dimming driver side mirror)
- New Trailblazer Package (available on 4-door LT models only, interim 1998)

INTERIOR

- New mini module Next Generation driver air bag
- New 6-way power passenger seat and 6-way power driver seat option (available on LS models only)
- New 8-way power passenger seat and 8-way power driver seat (standard on LT models only)
- New 2-position memory driver seat adjuster (standard on LT models only)
- New multi-disc CD changer in floor console (available with uplevel, premium sound systems)
- New premium Bose sound system
- Steering wheel radio mounted controls (available on most models)
- New content theft alarm (with Remote Keyless Entry only)
- Au0 - Remote Keyless Entry now a free flow option (includes new content theft alarm)
- New liftglass-ajar telltale warning light

FOUR NEW EXTERIOR COLORS

- Sunset Gold Metallic
- Meadow Green Metallic (replaces Emerald Green)
- Victory Red (replaces Apple Red)
- Indigo Blue Metallic (interim 1998)

POWERTRAIN

- New AUTOTRAC transfer case standard (4x4 models only)

BLAZER INTRODUCTION

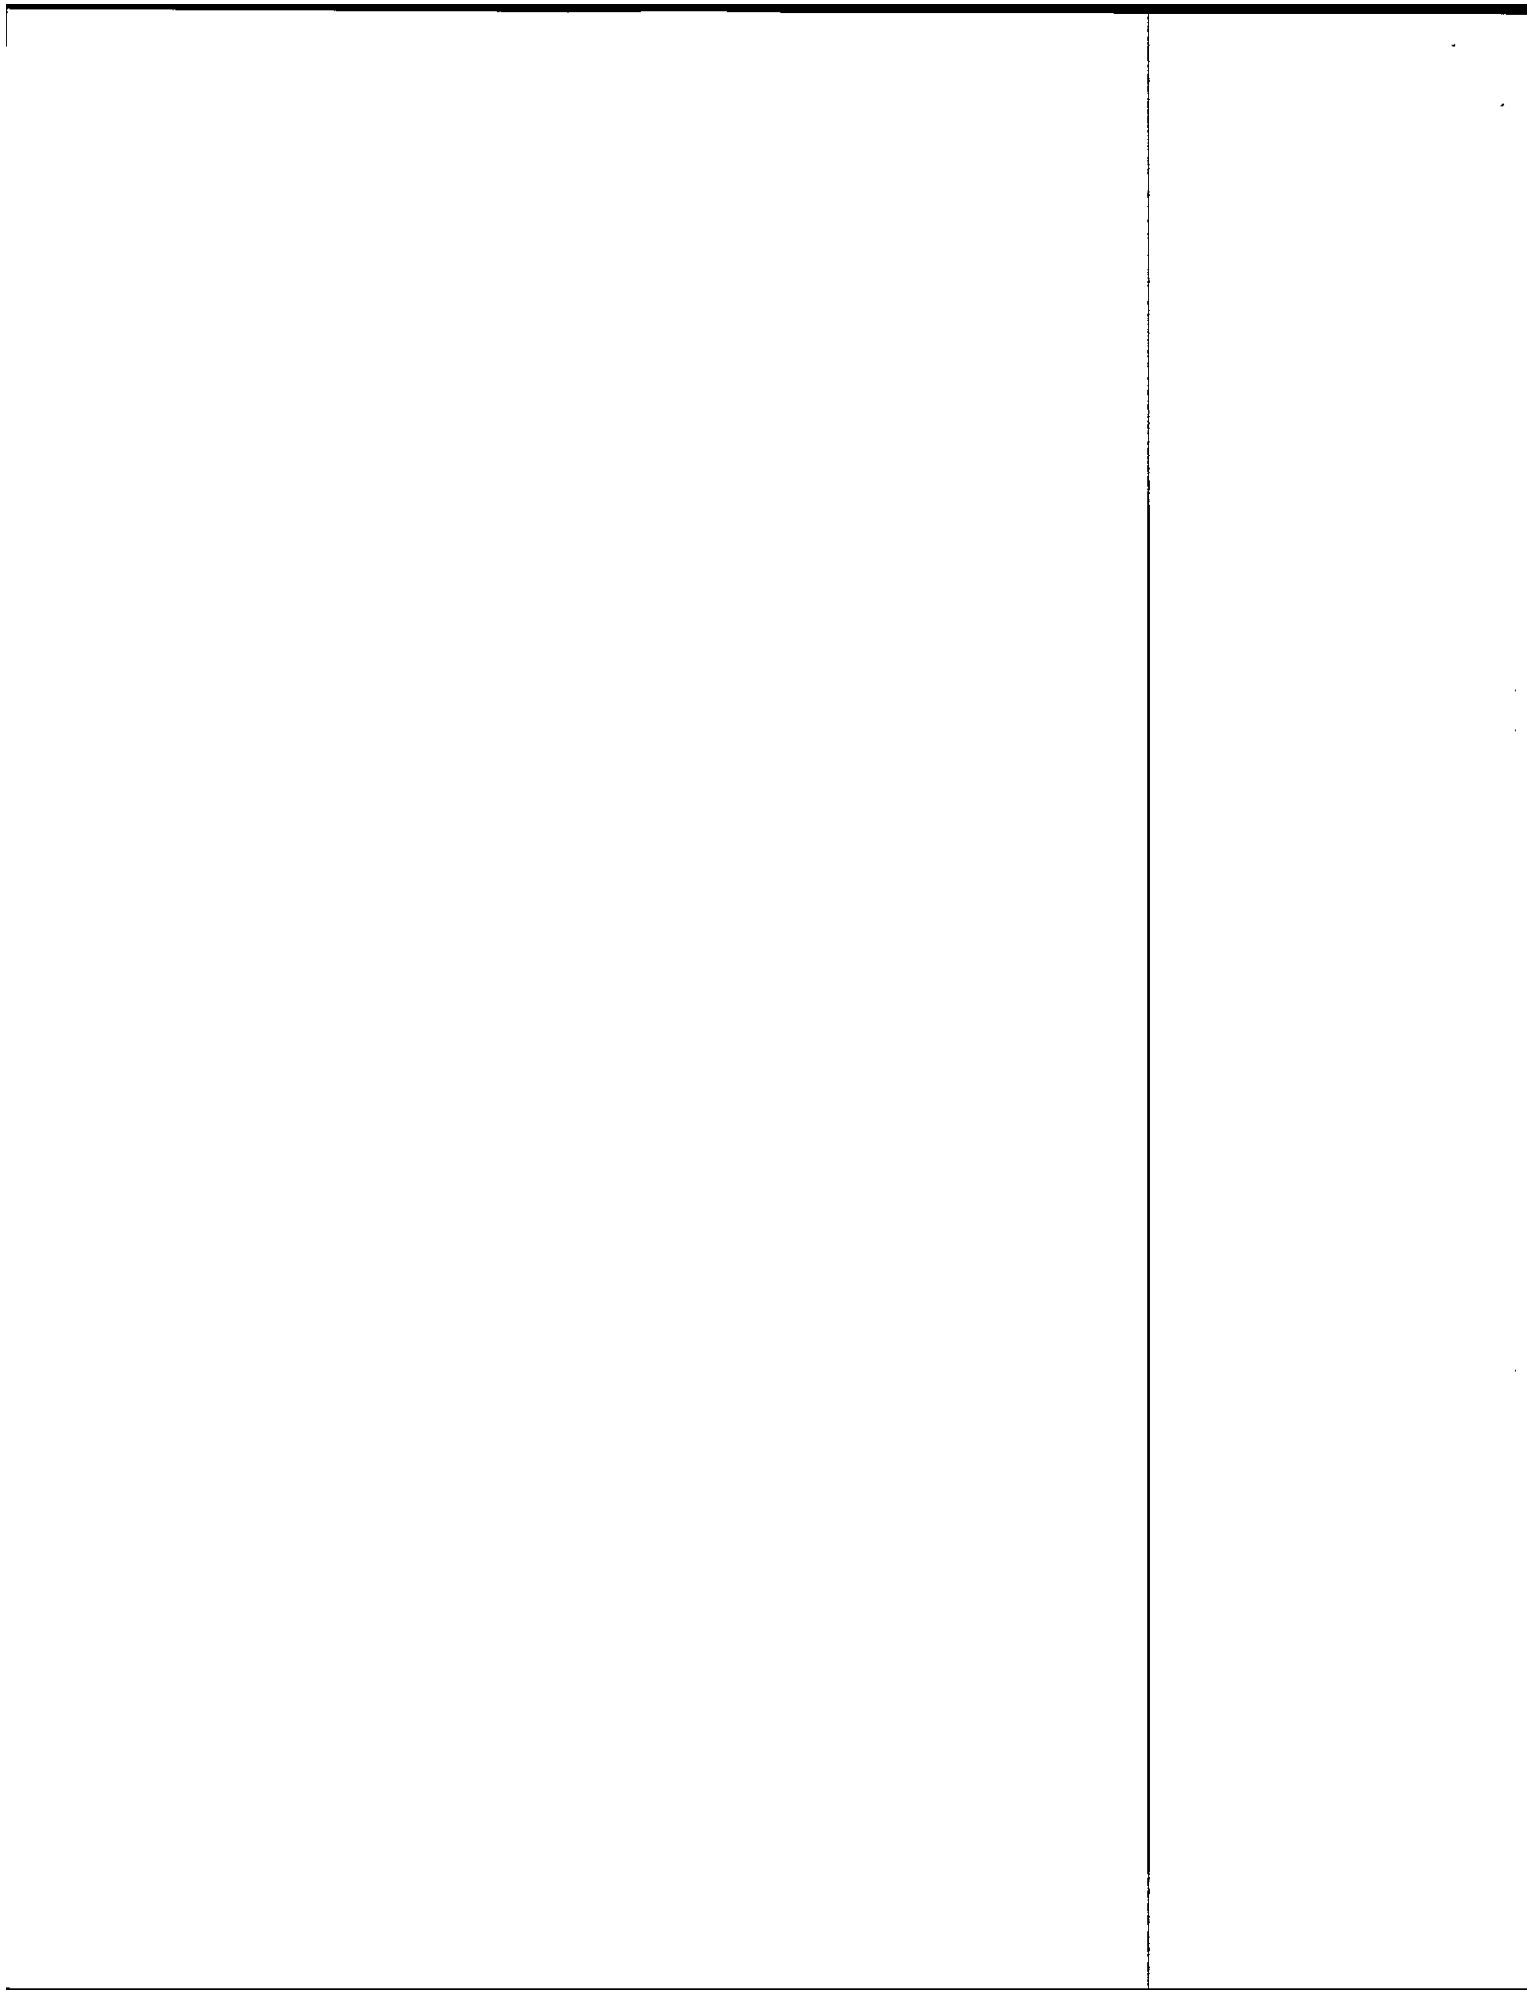

BLAZER

The 1999 Chevrolet Blazer is offered in both two- and four-wheel drive, 2-door and 4-door models.

Changes on the 1999 Blazer include:

- New Optional AutoTrac Four Wheel Drive (NP8)
- New Sound System Offerings including:
 - Optional Bose Premium Sound System (UQ3)
 - Optional 6-CD Compact Disc Changer Located in Center Console (U1Z)
 - Optional Redundant Radio Controls on Steering Wheel (UK3)
- New Front Seating Enhancements Including:
 - Optional Driver and Passenger 6-way Power Seats with Manual Lumbar Adjustment on LS Models (AG1)
 - Standard Driver and Passenger 8-way Power Seats with Power Lumbar Adjustment
 - Two Position Driver Memory System on LT (interim availability)
- New Outside Rear View Mirrors with Improved Visibility Including:
 - Standard Power Remote and Heated on LS Models (DK2)
 - Standard Power Remote and Heated, with Electrochromic Driver Side on LT
- New TrailBlazer Package (CTB) Including:
 - Sporty, Monochromatic Exterior with Specific Rocker Moldings
 - Specific Gold-accented Wheels, Emblems, and Pinstripe
 - Z85 Touring Suspension with P235/75R15 WOL On-/Off-Road Tires (on 4WD models)
 - Two-toned Beige Leather-trimmed Seats and Matching Door Panels, Floor-mounted Automatic Transmission, Beige Leather-wrapped Steering Wheel and Shift Knob, and Specific Floor Mats
- New Flash-to-Pass Feature
- New Content Theft Deterrent Included with Remote Keyless Entry
- New Liftglass Ajar Monitor
- New Key Heads with Chevrolet Logo
- New Compact Horn Pad with Improved Visibility and Horn Actuation
- Three New Exterior Colors

BLAZER

MODEL SELECTION SUMMARY

Use the chart below to choose the model that fits your customer's needs. Please note that the Base Payloads shown reflect the maximum allowable weight of cargo that can be carried in a standard model, including occupants. (They are calculated by subtracting curb weight from GVWR.) To calculate payloads for models with optional equipment, please refer to the WEIGHTS section in the back of this book or consult your 1999 GM PROSPEC. Also, the Maximum Trailer Weights shown on the last page of this section are based on vehicles that are properly equipped. See your Chevrolet Truck Order Guide for specific details.

SERIES	MODEL NUMBER/ BODY CODE/ OPTION CODE	PASSENGER CAPACITY (STD./OPT.)	STANDARD ENGINE/ TRANS.	OPTIONAL ENGINE/ TRANS.	GVWR (LB)	GAWR (LB) FRONT/ REAR	BASE PAYLOAD (LB)

* Always wear your safety belts.

PREFERRED EQUIPMENT GROUPS

Preferred Equipment Groups (PEGs) are convenient option packages that can save your customers money. They would pay appreciably more by buying all the options in a Preferred Equipment Group as individual options. (Savings based on a comparison of Manufacturer's Suggested Retail Price of option packages versus MSRP of individual options purchased separately). See your 1999 Chevrolet Truck Order Guide and Vehicle Price Schedule for specific information and prices.
